

Girls' Education Program

State: Madhya Pradesh (Ghoradongri)

The project Girls child education program was initiated since July 2011 in the Ghoradongri girl's middle school. The cultural and socio economic strata of the girls make the strategic interventions more difficult in the area but still their levels of participation in the process led 64 girls completing their education of 6th standard during the last year of the project and at present we are working with 133 girls of class 6th and 7th.

Objective of the program

- Girls have to complete Middle school and Increase girls' self-awareness, decision-making and problem-solving skills.
- Increase family, peer, and community awareness and support of girls' education
- Increase collaboration with government to support policies and programs to promote girls' education
